

INDUSTRIAL SOLUTIONS PARTNER • ESTABLISHED 1999

ASEK GROUP

Heat-Exchanger & Condenser Re-tubing

Full Re-tubing • Partial Re-tubing • Tube Plugging • Condenser Tube Cleaning • Testing

SOLE DISTRIBUTOR OF KRAIS (POLAND) IN EGYPT

Engineered for Efficiency Since 1999

ASEK Group was established in 1999 as a trading company specializing in the supply of condenser and heat-exchanger re-tubing tools. Over more than 25 years we have grown into a full engineering partner for industrial heat-transfer equipment, trusted by power stations, refineries, fertilizer plants and manufacturers across Egypt.

Today ASEK operates two dedicated facilities: our head office in Maadi, Cairo, and our manufacturing plant in 10th of Ramadan City. Unlike a typical OEM, we deliver the same high-quality product or service whether the work is carried out in our workshop or directly on your site.

- 1999**
Founded as a specialized trading company for condenser and heat-exchanger re-tubing supply.
- 2003**
First re-tubing workshop built in 10th of Ramadan City.
- 2008**
Began in-house production of custom low-pressure (LP) heat exchangers.
- TODAY**
Two facilities, full design-to-warranty capability, and Egypt's sole KRAIS distributor.

Core Service Lines

Vision, Mission & Values

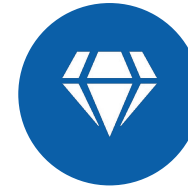

Our Vision

Strengthening our leading position in heat-exchanger and condenser re-tubing and new production, drawing on more than 20 years of experience and the latest scientific and technological developments.

Our Mission

Delivering high-quality services and production at a competitive price-quality-service balance, with an individual approach for every customer, backed by a highly experienced technical team.

WHAT WE DO

Our Services

Six core service lines. One dedicated re-tubing and heat-exchanger specialist.

Re-tubing

Damaged or corroded heat-exchanger, condenser, air-cooler and boiler tubes replaced to meet or exceed original specification, quickly and efficiently.

Designing

Custom heat exchangers engineered around your fluid type, temperature change and available space for an efficient, reliable result.

Manufacturing

Designs brought to life in our state-of-the-art facility, using premium materials and construction methods built to last.

Maintenance

Scheduled inspection, cleaning and repair of heat exchangers, air coolers, condensers and boilers to safety and performance standards.

Re-Engineering

Existing equipment re-engineered with the latest technologies and materials to improve efficiency, lifespan or performance.

Warranty & Testing

A comprehensive warranty and testing programme included on every maintenance, re-tubing, design or manufacturing project.

Heat Exchangers, Boilers & Condensers

Heat Exchanger Solutions

For over 25 years ASEK has delivered high-quality, cost-effective heat-exchanger and condenser solutions across power generation, petrochemical, pulp & paper, refining and HVAC, performed at our plant or your site.

Boiler Solutions

Re-tubing of firetube and watertube boilers remains a common repair even with modern water treatment. We replace scale-damaged, corroded and pitted tubes to extend boiler life and efficiency.

Condenser Solutions

Contractor support and turnkey re-tubing for steam condensers. Our repair engineers and field technicians anticipate site-specific conditions before they become delays.

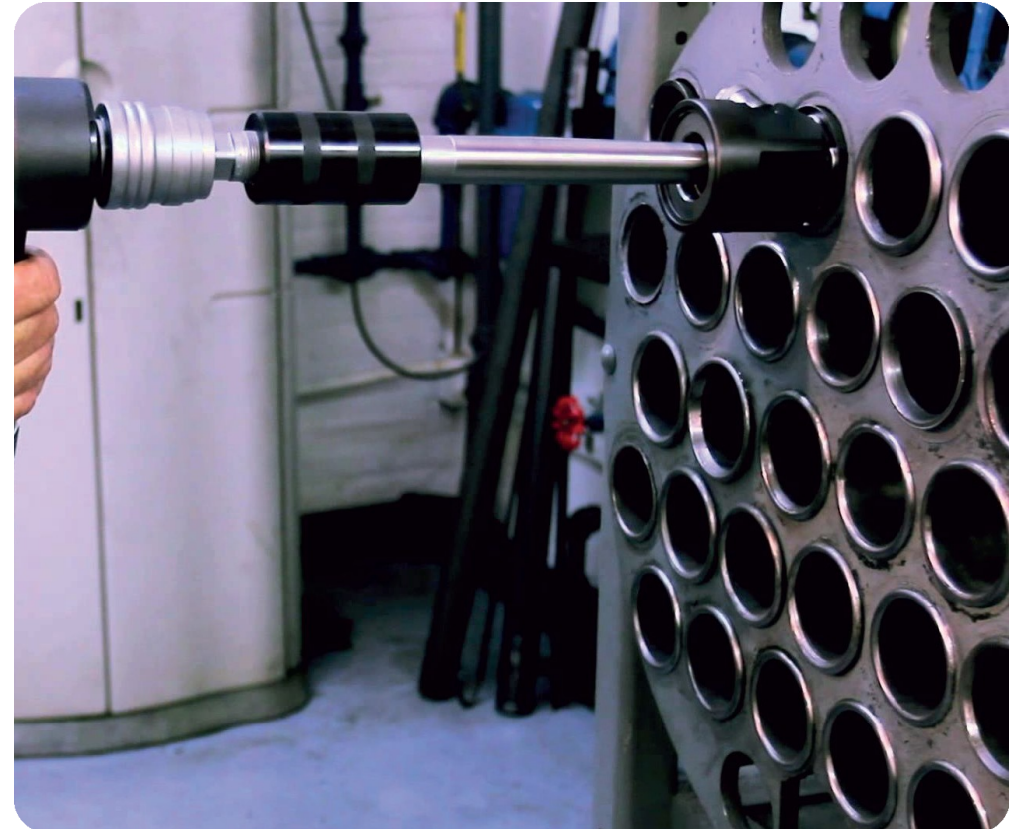

STRATEGIC PARTNERSHIP

Official KRAIS Distributor — Egypt

ASEK Group is the sole distributor of KRAIS (Poland) tube & pipe tools in Egypt, bringing world-class re-tubing, beveling and flange-machining equipment to Egyptian industry, backed by local technical support.

- ✓ Full range of heat-exchanger maintenance tools
- ✓ Tube expanding, cutting, cleaning & testing systems
- ✓ Technical support & on-site training

KRAIS Tooling Range

Tube Expanders & Rolling Motors

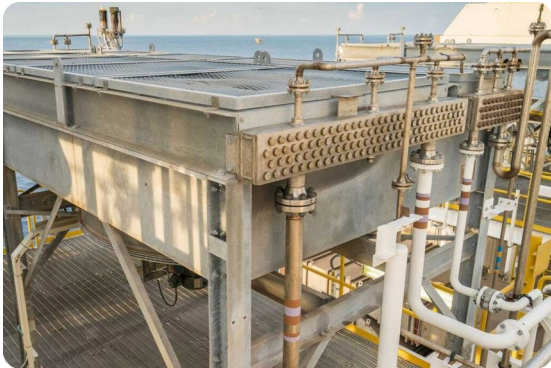

Tube Installation Tools

Tube Bevelling Machines

Pipe Bevelling Machines

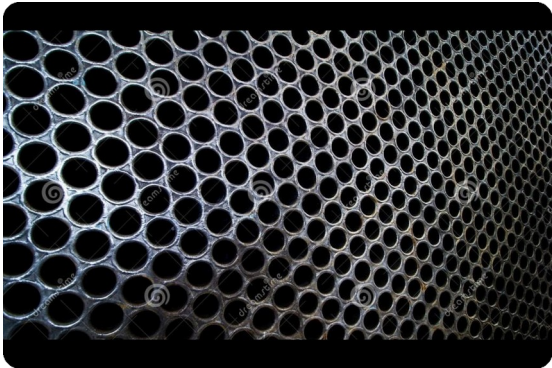

Special FinFan Maintenance Tools

Flange Facers

Tube Cutters & Pullers

Accessories & Special Tube Tools

Industries We Serve

Power Generation	Oil, Gas & Petrochemical	Fertilizers
Cement	Sugar & Food Processing	Pulp & Paper
Refining	HVAC	Steel

From national utilities to private industrial manufacturers, trusted across Egypt's heavy industry — at our facilities or directly on your site.

Our Clients

Power & Electricity

- Cairo Electricity Production Co.
- Upper Egypt Electricity Production Co.
- East Delta Electricity Production Co.
- West Delta Electricity Production Co.
- Middle Delta Electricity Production Co.
- New & Renewable Energy Authority

Oil, Gas & Petrochemical

- Suez Oil Processing Co.
- Nasr Petroleum Company
- Assiut Oil Refining Co. (ASORC)
- Petrojet
- ENPPI
- TAQA Arabia
- CarGas (NGV)

Fertilizers & Cement

- Suez Co. for Manufacture of Fertilizers
- SEMADCO
- Abu Qir Fertilizers & Chemical Industries
- TITAN Cement Egypt
- Royal El Minya Cement Co.

Sugar & Industrial

- Egyptian Sugar & Integrated Industries Co.
- Nile Sugar
- Alexandria Sugar Company
- Al Sharkeya Sugar
- Mansoura Resins & Chemical Industries
- Kandil Steel

Why ASEK Group

	Dedicated Focus	Re-tubing and heat-exchanger work is our only business, not a maintenance contractor's sideline, backed by 25+ years of engineering experience.
	Patented Tooling, Proven Know-How	Systematic, repeatable results from patented tooling and engineering expertise, project after project.
	Turnkey or Tooling Support	Full turnkey re-tubing projects, or KRAIS tooling and technical support for your own labor force, whichever suits your project.
	In-Plant or On-Site	The same high-quality product or service delivered at our facilities or directly at your site, unlike a typical OEM.
	Warranty On Every Project	A comprehensive warranty and testing programme included on every maintenance, re-tubing, design and manufacturing project.
